## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States
- 2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Ersoy et al. (USP 6,553,864) published on November 16, 2000 as PCT/DE00/01371.

Re clms 1-4: Ersoy et al. discloses a brake pedal that has an elongated lever body (2) comprising a metal tubular core (8) made of steel, a plastic component (9) enclosing said metal tubular core including an integrally formed foot pad (3) at one end and a pivot lug (12) at the other end of said elongated lever body.

Re clm 3: The examiner notes that Claim 3 is a product by process claim and determination of patentability is based on the structure implied by the process and not the method of manufacture. (See MPEP 2113)

Re clm 5: Ersoy et al. discloses a brake pedal including a plastic jacketing (9) consisting of PA6 or PA6.6/GF (C3 L14-16). PA6 is also known as nylon 6.
